Spec:

YEAR: 1972

BODY STYLE: Convertible

CONFIGURATION: RHD

ENGINE: 1798

MILEAGE: 33,000

TRANSMISSION: Manual

PRICE: SOLD

Description:

MG Roadster. 33,000mils. Oselli Fast Road Engine

SUMMARY

A very smart, low mileage MG Roadster fitted with the legendary Oselli fast road spec engine. It comes complete with recent new hood, exhaust, carpets, MOT and service. The paintwork, brightwork, interior, engine & transmission are all good.

Is it "concur's"? No! But with some time & careful detailing here & there it will certainly be a candidate for a podium place at Regional Shows if that is what you want. Or, as we believe, just fettle as you go and enjoy this lovely, honest car.

HISTORY FILE & DOCUMENTATION

This clean MG comes with a good deal of back-up documentation. There is every reason to believe from the file, supported by the condition of the car, the mileage is genuine. There are MOT's on file going back 20yrs. Each showing a small increment in mileage at each test. Invoices from the early '90's back-up the MOT's. The last but one ownership change was in 1992. Interestingly, with the car is a copy of a Classic Car Insurance Policy from the 1990's. A condition of the Policy is a max mileage of 3,000mils per year.

EXTERIOR

Not at all unusual for an MG of this vintage it appears to have been the subject of an older light restoration. Whoever carried it out did a wonderful job. The paintwork is still in outstanding condition, as is all the brightwork. The previous owner has spent considerable attention to detail upgrading areas but retaining originality. Just one such example is the original metal number plates. The overall effect is a remarkably smart looking car with great period features.
